

François Ventura has developed a fascination for the infinite and varied lights of Lake Geneva. He realized a collection of photographs taken from the same location, the same horizon, the same subject : the Lake as a mirror. Only the time and framing change. This work is a reflection of nature, the seasons, the wind, the clouds, the sun, the night... Those unfiltered **LAKE A MIRROR's** pictures represent the immensity of nature, but also the mirror of our moods and emotions.

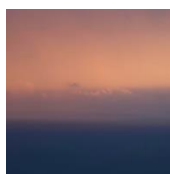

All photos are printed on fine art Hahnemühle paper.
 Editions of 5 – numbered, signed and certified. Different formats are available
